Ideation Phase

Define the Problem Statements

Date	29-09-2026
Team ID	SWTID-2026-3846
Project Name	Streamlining IT procurement : Automating standard team
Maximum Marks	2 Marks

Customer Problem Statement Template:
Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement Table:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An Employee in an organization	Get standard IT tools and hardware approved quickly for work.	The procurement approval process takes too many days.	Every request goes through multiple manual manual approvals regardless of cost.	Frustrated and delayed in my day-to-day work output.
PS-2	An IT / Procurement Admin	Fulfill standard software license and asset requests efficiently.	I am bogged down by routine manual approvals and tracking emails.	There is no automated system to pre-approve low-cost standard items.	Overwhelmed and inefficient in managing priorities.
