Project Design Phase-II
Data Flow Diagram & User Stories

Date	30 September 2026
Team ID	SWTID-2026-3846
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a graphical representation of how information moves through a system. It shows how data enters and leaves the system, how it is processed, and where it is stored.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Employee (Requester)	Submit Laptop Request	US-01	As an employee, I can submit a standard laptop request through the service catalog.	Request is created successfully with required details.	High	Sprint-1
Employee (Requester)	Provide Required Details	US-02	As an employee, I can enter necessary details in the request form (model, quantity, justification).	All mandatory fields are validated and saved.	High	Sprint-1
Manager (Approver)	Approval / Rejection	US-03	As a manager, I can review the request and approve or reject it.	Approval status is updated and notified to the requester.	High	Sprint-1
IT Procurement Team	Create IT Task	US-04	As an IT procurement team member, I can view approved requests and create an IT task automatically.	IT task is created in the system with correct details.	High	Sprint-1
IT Procurement Team	Laptop Assignment & Asset Update	US-05	As an IT team member, I can assign a laptop and update asset records in ServiceNow tables.	Laptop is assigned and asset record is updated successfully.	Medium	Sprint-2
ServiceNow Notifications	Send Notification	US-06	As a system, I can send email / in-app notifications to the requester when the request is completed.	Notification is sent with correct details (laptop info, status).	High	Sprint-2
Employee (Requester)	View Status & History	US-07	As an employee, I can view the status and history of my requests.	Status is displayed correctly with complete history.	Medium	Sprint-2
Administrator	System Configuration	US-08	As an administrator, I can configure service catalog, notifications and workflow settings.	Configuration changes are saved and reflected in the system.	Low	Sprint-2
